Key Points of Adhesives & Sealants Market:

Extensive coverage of the analysis of the Adhesives & Sealants market
Key insights into the regional spread of the industry in key geographies
Radical insights into the vital market trends; both current and emerging trends, and factors influencing the growth of the market
Comprehensive coverage of the impact of the COVID-19 pandemic on the overall growth of the Adhesives & Sealants market
Complete data about the key manufacturers and vendors in the Adhesives & Sealants market
Market Drivers:

The constant efforts of prominent players to develop newer and modern technologies and product advancements are expected to drive the growth of the industry over the coming years. The report studies the extensive business expansion plans and advancements in R&D activities and product portfolio. The report offers a clear understanding of the alliances in the market, such as mergers and acquisitions, joint ventures, collaborations, partnerships, agreements, product launches and brand promotions, and corporate deals.

The report also talks about the shift in demands and emerging trends that are expected to drive the growth of the market. The rising demand for the Adhesives & Sealants products is expected to drive the demand for Adhesives & Sealants, thereby bolstering the growth of the industry. Moreover, the report also studies the impact of the COVID-19 pandemic on the market.

Leading Companies of the Adhesives & Sealants Industry and Profiled in the Report are:

Key market participants include H. B. Fuller, Henkel AG, 3M Company, Huntsman Corporation, DowDuPont Dowdupont Inc., Avery Dennison Corporation, Arkema, Sika AG, Illinois Tool Works Inc., and Wacker Chemie AG.

Key Highlights of Report

Water-based adhesives are obtained from natural polymers and it is an ultimate choice for quick set application in bookbinding. Water-based adhesives are free from solvents and they are safe to use in areas with very little ventilation.

The paper & packaging industry is witnessing significant growth, owing to growth of cosmetics, food & beverages, and consumer goods industries. The growing trend of online shopping is expected to further propel the market during the forecast period. Adhesives and sealants are used in more than 80% of food packaging.

Silicon resins are low-molecular-weight polymers with excellent thermal stability. Their property makes them suitable for usage as binders in paints, impregnating products, and varnishes. They are odor free, easy to use, and they offer excellent adherence to the surface of molds.

The Asia Pacific market is estimated to witness significant growth during the forecast period, due to massive population and shifting of manufacturing sites from developed regions toward developing countries in APAC. The automotive as well as the packaging industry has witnessed significant growth over the last few years, with contribution from the ASEAN countries.
