

Minsait ACS, A Leading Provider of Software Solutions for the Power Industry, Launches Their Summer Webinar Series

Minsait ACS invites you to register now, so you don't miss any of their upcoming summer content!

PEACHTREE CORNERS, GEORGIA, UNITED STATES, June 8, 2022 /EINPresswire.com/ -- [Minsait ACS](#) will be kicking off their summer Webinar Series this June. This online series is part of the company's commitment to creating educational material for the utility industry. These informative webinars help professionals in the energy industry stay up-to-date on emerging technologies and strategies for including various technologies in future endeavors.

The first webinar will be on June 21, 2022, titled "The Path to Neural Grids," featuring [Verizon](#). Industry professionals, Giovanni Polizzi of Minsait ACS and Al Mahesh and Zach Lewallen of Verizon, will discuss what the future looks like for the utility grid. This webinar aims to provide insights into how neural grids can be integrated into existing infrastructure. The information presented during this webinar will help participants understand how neural grids might affect their businesses moving forward, as well as what steps they can take now to prepare themselves for its implementation. It will take place from 2:00 to 3:00 PM EST and you register using the link on the Minsait ACS events page.

The next webinar, happening on July 12, 2022, features Southern Company. It is called "PublicPowerX Webinar: Data Analysis for Asset Performance – a Southern Company R&D Case Study" and is being hosted through [American Public Power Association \(APPA\)](#). In it, Giovanni Polizzi, Minsait ACS's VP of Sales & Marketing, will discuss Asset Performance Management (APM), and its ability to improve asset reliability, and availability, while reducing operation and maintenance costs. It will take place from 2:00 to 3:00 PM EST and registration can be found on the APPA website.

To learn more about upcoming webinars in Minsait ACS Summer Series, check out their events page.
