

# Geared Up is Simplifying Transmission Repairs for Florissant Residents

*Geared Up Transmissions brings together all types of automotive transmission repairs under one roof, for private car owners and commercial fleet owners.*

FLORISSANT, MISSOURI, UNITED STATES, June 9, 2022

/EINPresswire.com/ -- It is estimated that the demand for automotive transmission systems is to increase to more than 6% CAGR between 2021 and 2031, with the market valuation crossing US\$ 70 billion by the end of

2031. While automakers continue to showcase new models, automotive transmission systems are also evolving. As new car models emerge with more complex transmission systems, it can get difficult to find an automotive transmission specialist that can handle transmission repairs for new and aging vehicles. [Geared Up Transmissions](#) has an experience of more than three decades

“

I wholeheartedly believe we are the #1 transmission repair shop in Florissant because we listen to the customer and our techs have 30+ years of experience rebuilding transmissions & fixing vehicles.”

*Kevin Durham*

in different types of automobile repairs but it specializes in transmission repair services, serving the St. Louis area.

Transmission rebuilds can be expensive. Whether it is a sports truck or a family van, the long-term health and performance of the vehicle are affected by how the gearbox functions, and this includes both, automatic and manual transmissions. Whether it is the stick-shift manual gear system or sleek, automatic gearboxes, the transmission is a complicated mechanical system. Big expensive repairs can be avoided if car owners are regular about basic upkeep such as checking for low transmission fluid levels.

The team at Geared Up shares such insight, helping car owners avoid serious transmission problems. Similarly, the clutch needs a close examination. From bad driving habits such as riding the clutch to not fully engaging it when downshifting can also bring about unwarranted wear &

tear. The Geared Up team helps vehicle owners understand how they can take simple corrective measures to avoid such problems. Not just the transmission upkeep and maintenance issues, the team also helps to check for the minutest symptoms of transmission damage such as issues in the torque converter that often happen due to excessively revving the engine.

“Hands down the best transmission repair shop in St Louis. Kevin is honest and easy to work with and they know their stuff inside n out. Never seems like they are stumped with any auto repairs, especially transmission work. I know a few people that have had their transmissions rebuilt by them and everything went great with no complaints.” - Jason M.

Often cars that come in with transmission problems have other, niggling issues that can impact the car’s performance. The Geared Up team caters to all such auto repair demands. This also includes support for towing which can happen when people have driven too long with a deteriorating transmission system and end up stuck with a vehicle breakdown. Operating in the St. Louis area, the team offers quick towing for such vehicles, ensuring the stress that comes with being stranded midway can be controlled and a timely repair can get the car on the road again.

People looking for [transmission repair in Florissant MO](#) might not realize that all transmission service providers don’t offer the same bandwidth of services. While some only handle transmission system replacements and installations, others cater to only transmission rebuilding projects, while some work for commercial fleet vehicles only.

The Geared Up team brings together all such aspects of transmission work under one roof, catering to the biggest commercial fleet owners and private car owners. Expect the team to share any aspect of the transmission repair process that a vehicle owner might want to know about, including the assembly-dismantling, condition of worn-off or damaged parts, or parts that need an immediate replacement, with expert technicians explaining any failing external or internal components.

### About Geared Up Transmissions

Geared Up Transmissions is a family-owned and operated business, rooted in the greater St. Louis area. The Florissant-based transmission repair specialist pays close attention to what its customer has to say and its team of automotive technicians uses their experience of more than 30 years to rebuild transmissions and fix underperforming vehicles. The business has also started a financing option to help car owners. [See some of their reviews.](#)
