

LATAM Aesthetic Devices Market is expected to Reach USD 359,813.65 Thousand - By Products, Application & Key Players

LATAM Aesthetic Devices Market Size, Share, Growth, Segment, Trends, Developing Technologies, Investment Opportunities, Revenue and Forecast

PUNE, MAHARASHTRA, INDIA, June 9, 2022 /EINPresswire.com/ -- LATAM [Aesthetic devices market](#) is expected to gain market growth in the forecast period of 2021 to 2028. Data Bridge Market Research analyses that the market is growing with a CAGR of 6.8% in the forecast period of 2021 to 2028

and is expected to reach USD 359,813.65 thousand by 2028. Rising incidence of obesity and increased technological advancement are the major drivers which propelled the demand of the market in the forecast period.

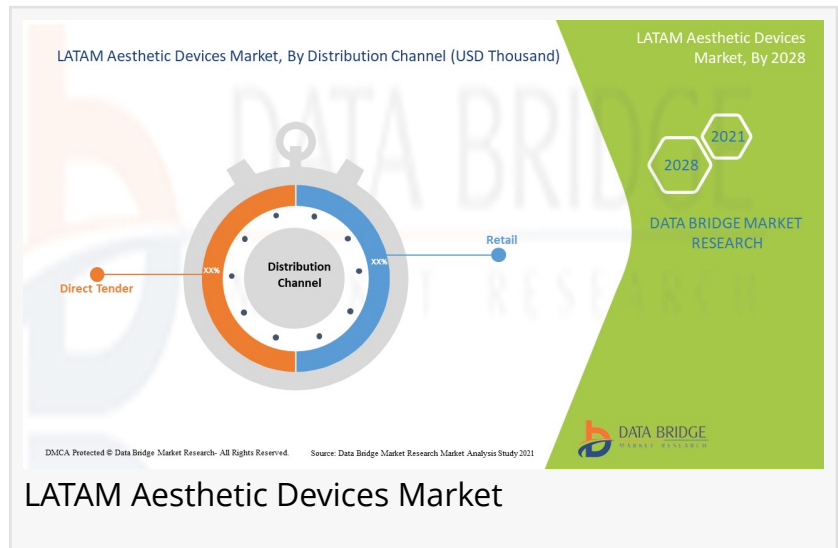

[LATAM Aesthetic Devices Market](#) is growing with factors such as rising demand for aesthetic appearance, increasing incidence of breast cancer and obesity, and growing awareness of procedures such as liposuction, body contouring and breast reconstruction.

However, the high cost of treatment along with the post-surgical complications may obstruct the growth of the market in the given forecast period.

Market Analysis and Insights: LATAM [Aesthetic Devices](#) Market

Aesthetic devices are the medical devices used for different types of cosmetic surgeries, including trimming off excess fat, plastic surgery, anti-aging, unwanted hair removal, skin tightening, aesthetic implants among others, and all these treatments are used to prettify and improve the appearance of the body.

The increase in demand for good aesthetic appearance, rise in initiatives of various aesthetic societies to increase awareness about breast cancer and obesity, rising prevalence of breast cancer in the LATAM region are the factors that act as drivers for the growth of the LATAM aesthetic devices market. However, the recall of various aesthetic devices & accessories is hampering the market growth. The emergence of COVID-19 acts as a challenging factor for the growth of the LATAM aesthetic devices market.

The aesthetic devices market report provides details of market share, new developments, and product pipeline analysis, impact of domestic and localised market players, analyses opportunities in terms of emerging revenue pockets, changes in market regulations, product approvals, strategic decisions, product launches, geographic expansions, and technological innovations in the market. To understand the analysis and the market scenario contact us for an Analyst Brief, our team will help you create a revenue impact solution to achieve your desired goal.

Latin America Aesthetic Devices Market Scope and Market Size

The aesthetic devices market is segmented on the basis of products, end user and distribution channel. The growth among segments helps you analyse niche pockets of growth and strategies to approach the market and determine your core application areas and the difference in your target markets.

On the basis of products, the LATAM aesthetic devices market is segmented into facial aesthetic products, body contouring devices, cosmetic implants, hair removal devices, skin aesthetic devices and others. In 2021 skin aesthetic devices segment is dominating the market because of

the increased demand for aesthetic beauty among both men and women.

On the basis of end user, the LATAM aesthetic devices market is segmented into dermatologyclinics, cosmetic centres, hospitals, homecare, medical spas and beauty centres and academic and private research institutes. In 2021 hospitals segment is dominating the market because hospitals can make high capital investments to bring technologically advanced and the latest aesthetic devices and accessories.

On the basis of distribution channel, the LATAM aesthetic devices market is segmented into direct tender and retail. In 2021 direct tender segment is dominating the market because the direct tenders provide the wider pool of products to select from and is less expensive as compared to other distribution channel.
