

Switch Offers Blockchain Seminars in Texas

Crypto... Demystified

HOUSTON, TX, USA, June 9, 2022 /EINPresswire.com/ -- Texas residents who are struggling to understand blockchain products and their value will have the opportunity to improve their understanding at a series of seminars taking place this summer.

There will be two events in Houston, two in Austin, and four in Dallas.

The events will cover six key topics. The first is an introduction to cryptocurrency, its technology, and its future. The second is crypto from the perspective of the historical monetary policy.

The seminar will then go on to cover the pros and cons of using cryptocurrency, as well as its future.

“

It is well enough that people of the nation do not understand our banking and monetary system, for if they did, I believe there would be a revolution before tomorrow morning.”

Henry Ford

Attendees will be given an introduction to crypto nodes and the concept of earning rewards, and will learn how to become part of a “cutting edge” community.

Participants will also learn about the benefits of blockchain.

Participants will walk away from the seminar with the knowledge and insight needed to make informed decisions about cryptocurrency.

The dates and locations are:

Switch + SWITCH Digital Rewards
