BeVeg Vegan Certification at BEVNET & NOSH in New York City

The BeVeg [Vegan trademark](#) is a global trademark that enables brands to independently validate Vegan product claims with confidence. Vegan certification is important for the plant-based consumer, and for the producer wishing to access new capital markets. BeVeg is ISO 17065 accredited for Vegan product/service certification and is partnered with NSF, a global leading food safety certifier, and the Orthodox Union, world's most recognized kosher certifier. NSF and the OU offer BeVeg as a stand alone Vegan certification program and audit and as a bundle offering; meaning companies can also certify Vegan during their annual kosher, non-gmo, gluten-free, or other integrity audit with minimal factory disruption.

“

Vegan certification is important for the plant-based consumer, as that is the official product claim for the plant-based person. Vegan certification and plant based cannot be used interchangeably. ”

BeVeg International Vegan Certification
