The water heaters market consists of sales of water heaters. A water heater is a device used for heating water above its ambient temperature, used generally for domestic purposes.

[Global Water Heaters Market Trends](#)

Water heater manufacturers are increasingly producing energy-efficient products to reduce carbon footprint and enable energy savings for the consumers. The rise of energy-efficient appliances can be attributed to the stringent government regulations on electric home appliances and advances in technology. Energy efficient appliances are designed to utilize minimum energy to complete the required task. Currently, over 80 countries have standards and labels for energy efficient appliances. For example, in the USA, an energy star certified water heater saves \$3500 over its lifetime.

[Global Water Heaters Market Segments](#)

The global water heaters market report is segmented:

By Product Type: Solar Heaters, Electric Heaters, Gas and Propane Heaters, Geothermal Heaters

By End-User: Residential, Commercial, Industrial

By Distribution Channel: Supermarket/Hypermarket, Specialty Stores, E-Commerce, Others
By Geography: The global water heaters market segmentation is divided into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia Pacific accounts for the largest share.
