The water purifiers market consists of the sales of water purifiers and related services. Water purifiers are the devices used to purify water from the biological contaminants, toxins, harmful chemicals & gases, and others impurities such as solid particles so that it can be safe for drinking. It also decreases the level of hazardous pollutants in it and making it suitable for the industries before releasing it into the water bodies.

Global Water Purifiers Market Trends

The increase usage of internet of things technology (IoT) enabled water purifier is an emerging trend in the water purifiers market. The Internet of Things is a network which contains interrelated physical components which can be accessed using the internet for collecting and exchanging data. In water purifiers, the Internet of things is used to give information on the water quality, life of the filters, total dissolved solids levels, and service support. For instance, MI (Xiaomi), a Chinese smart phone manufacturer recently launched the Mi Smart Purifier which is an app-enabled and can be linked to the Xiaomi Home app. The app gives the data of total dissolved solids (TDS), and remaining filter life. Most of the recent products nowadays are enabled with internet of things, so it is expected to be an emerging trend in the water purifiers market.

Global Water Purifiers Market Segments

By Technology Type: RO Water Purifier, UV Water Purifier, Gravity-Based Water Purifier

By End-User: Industrial, Commercial, Household

By Distribution Channel: Retail Stores, Direct Sales, Online

By Portability: Portable, Non-Portable

By Device Type: Wall-Mounted, Countertop, Tabletop, Faucet-Mounted, Under-The-Sink (UTS)

By Geography: The global water purifiers market segmentation is divided into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia Pacific accounts for the largest share.
