

EvidenceCare Creates First Clinical Advisory Group for AdmissionCare

To continue improving its clinical platform, EvidenceCare recently formed its first Clinical Advisory Group with top clinical and revenue cycle leaders.

NASHVILLE, TN, USA, June 13, 2022 /EINPresswire.com/ -- As an ongoing commitment to improving its clinical platform, EvidenceCare recently formed its first Clinical Advisory Group. The group consists of various clinical and revenue cycle leaders and stakeholders in top health systems.

The focus of this particular group is on EvidenceCare's product,

[AdmissionCare](#), which integrates the bed status criteria needed to properly admit patients directly in the physician's workflow in the EHR.

The Clinical Advisory Group meets in-person and virtually on a quarterly basis with the goal of enhancing AdmissionCare through product feedback, future enhancements, and best practices.

“

With physician burnout at an all-time high, we want to be creating innovative products that physicians actually want to use. That's why this group is essential to achieve that goal.”

Dr. Brian Fengler, Co-Founder and Chief Medical Officer at EvidenceCare

EvidenceCare Clinical Advisory Group

With a mission of optimizing clinical workflows in the EHR, EvidenceCare believes an acute focus on end-user experience and feedback is part of what makes our products solve cumbersome administrative problems for clinicians.

“We're creating products to solve outdated physician workflows and make their jobs easier,” said Dr. Brian Fengler, Co-Founder and Chief Medical Officer at EvidenceCare. “With physician burnout at an all-time high,

we want to be creating innovative products that physicians actually want to use. That's why this

group is essential to achieve that goal.”

The following were the members of the initial Clinical Advisory Group who met in-person at the inaugural meeting in May 2022 at EvidenceCare’s office in Brentwood, TN.

In order from left to right:

Margaret Hayes – UR Nurse, Clinical Integration – EvidenceCare

Carol Howard – VP, Clinical Revenue Cycle Integration – EvidenceCare

Dr. Phillip Coule – VP, Chief Medical Officer – Augusta University Health
