

Kounotori Token: Building in the Bear

Kounotori takes the necessary steps forward in the progression of the project's centralised exchange.

LONDON, UNITED KINGDOM, June 13, 2022 /EINPresswire.com/ -- Kounotori Token is proud to announce that it has registered as a Limited Liability Company. From day one the Kounotori project has built its brand around trust. Honesty, transparency, and integrity have been the pillars of the business model the developers have upheld.

Becoming a Limited Liability Company gives KTO Exchange LTD. its own legal identity.

Kounotori, a project that launched on the Ethereum network on December 3rd, 2021, boasts a fully doxxed development team, several security features as well as manipulation-resistant tokenomics. With the help of Tech Alchemy, the #1 Blockchain Agency in the world (source:

www.clutch.co), the Kounotori development team aims to launch its centralised exchange (CEX) with a staking platform where the Kounotori Token will take center stage and offer the highest rewards in a stable coin such as USDT/ USDC.

We have incorporated! The name of the LLC is KTO Exchange LTD."

Adrian Kanski

The intention of the project's centralised exchange (CEX) is to offer KYC-approved projects of all sizes a low-cost exchange listing, something that does not currently exist in DeFi. Kounotori's Whitepaper describes "adopting elements of centralisation into Kounotori would be essential to our longevity as a serious, and competitive
