

# 4th International Conference on Parkinson's, Huntington's & Movement Disorders

*Systematic Methodologies and Advanced Therapeutics to treat Parkinson's and Movement Disorders*

WELLING, LONDON, UNITED KINGDOM, June 13, 2022

[/EINPresswire.com/](https://EINPresswire.com/) -- Welcome to the 4th International Conference on Parkinson's, Huntington's, and Movement Disorders, which is scheduled on July 14th, 2022 as a Webinar.

After three spectacular successes and overwhelming responses got from our previous conferences, we eagerly anticipate bringing together the worldwide audience and attendees once again to pave way for "Parkinson's 2022" with an indigenous theme of "Systematic Methodologies and Advanced Therapeutics to treat Parkinson's and Movement Disorders".

We are ecstatic to have the opportunity to organize this important event as it emerges from the grips of the COVID-19 pandemic. We facilitate your professionalism even during this pandemic by delivering excellent training opportunities for collaborating, exchanging views, and enabling networking with experts around the globe.

Parkinson's Conference will serve as a foundation for a diverse group of professionals in the field of neurosurgery, neuroscience, neurology, and neurodegenerative disorders. This is a magnificent event point including medical services experts, academicians, and analysts around the world to connect and expand their knowledge globally.

We look forward to seeing more attendees discuss and analyze new upcoming concepts and theories regarding Neurosurgery, Central Nervous System, Neuropharmacology, and Neurodegenerative Disorders, and allow to pursue careers in research pathways to improve

treatments and speed up the interpretation of ongoing investigation at the clinical level for Parkinson's, Huntington's and Movement Disorders fields.

Our Conference includes international speakers and advanced Neuro-Specialists to illuminate us with various trends in Parkinson's Disease, Huntington's Disease, and Movement Disorders. It will provide a comprehensive overview of novel therapies and blend approaches, as well as reflect on the most recent discoveries in basic and clinical research, through a series of full seminars, breakout sessions, and workshops.

We are certain that Parkinson's 2022 will be a gratifying experience packed with cutting-edge science and education, as well as an excellent opportunity for attendees to network with experts from across the globe. We really appreciate your time and effort in collaborating with Parkinson's 2022.
