ABOUT

Hailing from Virginia, born in Virginia Beach and raised in Norfolk, Pluto Gone is a talented and gifted singer and song writer. Music has been a part of the young artist's life ever since he could first understand sound. Pluto credits his mother for being a major inspiration in his musical career, as she is the one who taught him how to sing. He also counts icons such as Michael Jackson, Chris Brown and his own father as inspiring forces that urged him to never give up on what he loves to do.

The eclectic artist's musical journey began after he penned down his first poem in 5th grade which led him into writing music for himself. For Pluto Gone, more than the sound of music, it is the feeling of releasing one's inner sound through words that is always a truly moving experience.

According to the artist, 'Pluto Gone' is more than just a name, it represents the state of "being somewhere but your mind is elsewhere in order to think of a way out of hard life". PG also refers to praising God and being hopeful that he will one day be amidst the greats of music, despite his lung afflictions.
