On July 13th at The Mirage in Las Vegas, TIC will be unveiling the largest [pure silver](#) sculpture ever created, at over 18,000 ounces and a purity of at least .999. This testament to their position at the top of the game shows how Treasure Investments Corp is innovating and pushing fine art forward as other markets fall and pull back.

The acquisition of Blue-Chip art and precious metals continue to be an island of plenty amidst a treacherous sea of doubt in other markets. Treasure Investments Corp is combining these two winning investment strategies into possibly the greatest singular achievement in art this century.

“

We are casting a world of masterpieces and making art history every day.”

Jason Dilling - President of Sales

With impeccable provenance, The Pietà by Michelangelo is currently being cast as a posthumous, one-of-one original. Because it was taken directly off the plaster mold from Michelangelo's marble masterpiece, the historical significance requires TIC to make it one of the most beautiful pieces of art ever created.

The path for TIC to get this opportunity included the acquisition and sale of a foundry in Italy, over 20 trips to and from Europe, millions of dollars in capital, and the endless hard work from their team and partners. This endeavor is over 18 years in the making and will be brought to the world for the first time during the opening ceremonies of Freedom Fest.

With exclusive access to create precious metal castings of all Michelangelo's priceless pieces,
