

Taihei Chemical Industrial joins BuyChemJapan

Taihei Chemical Industrial has entered into a partnership with BuyChemJapan Corporation, the operators of the chemical marketplace BuyChemJapan.com

OSAKA, OSAKA, JAPAN, June 28, 2022 /EINPresswire.com/ -- We are pleased to announce that Taihei Chemical Industrial (President: Masahiko Yoshikawa) has joined the growing number of Japanese chemical manufacturers who have decided to join the roster of companies working with the chemical marketplace "BuyChemJapan", a marketplace created and operated by the Osaka, Japan headquartered BuyChemJapan Corporation. (President: Masa Oguchi).

Taihei Chemical Industrial was established in 1946. We have been manufacturing phosphates and activated carbon products for over 75 years. In particular, in the three fields of calcium phosphate, potassium phosphate, and sodium phosphate, we have the largest number of products among Japanese manufacturers and have a top-class share. As a Japanese brand, we are proud of our high competitiveness to the world, such as focusing on materials used in the medical field.

Under this new agreement, buyers around the world can connect with Taihei Chemical Industrial and its products through BuyChemJapan.

BuyChemJapan is a start-up spun operating under the umbrella of BCJ, a trading company specializing in chemicals. With a deep understanding of the needs and business practices of both domestic and foreign manufacturers and buyers within the chemical industry, BuyChemJapan can actively promote Japanese competitive chemicals to overseas buyers through its well-received online marketplace, which specializes in introducing chemical products and promoting brand recognition. In a marketplace shaped by the COVID-19 pandemic, companies can no longer carry out traditional sales activities, so the time to shift to digital, online activities has come. The marketplace has been designed from the ground up to help simplify the process of

introducing the demands of buyers to leading Japanese chemical manufacturers.

Buyers can...

- Search for the required chemical via a comprehensive set of options and definitions.
- Make direct contact with the manufacturer with one click; there is no need to deal with intermediaries.
- Request a sample, price quotation or make an order directly from the manufacturer.
- Make a fully informed purchasing decision through use of a function which allows for direct comparison of chemical qualities and manufacturers costs (in development).
- Buy with complete confidence as the marketplace is only partnered with manufacturers who produce chemicals at their own factories.
- Any business currently being undertaken can be re-routed through BuyChemJapan, benefiting from the additional transparency and convenience the service provides.

BuyChemJapan is actively searching for and partnering with a rising number of chemical manufacturers. If you are an international chemical buyer who wants to negotiate directly with Japanese chemical manufacturers rather than go through troublesome, and expensive, intermediaries, then this is the service for you! BuyChemJapan.com is online now and you can open up a free account by going to BuyChemJapan.com and following the sign-up process - a video which explains how to sign-up can be found [here](#). If you are an international chemical buyer who wants to negotiate directly with Japanese chemical manufacturers rather than go through troublesome, and expensive, intermediaries, then this is the service for you!
