EIN Presswire announces a new standard feature benefit; Google My Business

WASHINGTON, D.C., USA, June 14, 2022 /EINPresswire.com/ -- [EIN Presswire](#) is announcing a free new standard feature to its press release distribution service, [Google My Business](#). A Google My Business listing shows searchers where and how to visit businesses having websites. Google Business Profiles improves local search engine optimization (SEO) and this information can now be presented in press releases distributed by EIN Presswire.

EIN Presswire's clients have the option to embed their Google My Business listing into each press release easily with a simple link that will render a Google map with their business profile directly onto their press releases. The Google Map listing will be reprinted on potentially thousands of EIN Presswire's publishing partners' web portals.
