

CEH, Equix, BE, (The Alliance) and ING Americas, Financial Advisor to CEH, announces FEED for Green Liquefied Hydrogen

Leading Edge of Liquefied Green Hydrogen renewable energy and technology alliance, delivering turnkey infrastructure solutions and technologies.

HOUSTON, TX, USA, June 14, 2022 /EINPresswire.com/ -- Clean Energy Holdings LLC (CEH) has awarded Equix Infrastructure, Inc. (Equix) the **Engineering Procurement and** Construction (EPC) Contract for CEH's 250 MW Green Hydrogen Clear Fork Texas Project. Equix and the Alliance will kick off front-end development on June 20, 2022. Congruently, ING Americas is providing advisory services related to raising equity and debt financing for the project as CEH's Financial Advisor. Bair Energy LLC (BE) serves as the Manager of the Alliance, and as the CEH Program Management Construction Management (PMCM) for the Project.

"CEH, in conjunction with our Alliance partners, selected Equix for many key

Clean Energy Holdings Alliance Partners

Candice McGuire

reasons with the leading focus being the EPC's industry-leading experience, reputation, and relationships, including proven capability in delivering energy, technology, and infrastructure turnkey solutions," stated Nicholas Bair, CEO of CEH "Equix exemplifies these goals and defines the strategic requirements of The Alliance and represents many of the core values and main drivers behind our Technology and Energy Transformation Platform. We are committed to

continue to provide safe, secure, and reliable energy solutions for the United States leading Green Hydrogen production and delivery."

Candice McGuire, Chairman BE, stated, "We're excited to work with Equix and provide best-in-class leading projects, working with our Alliance partnerships to resolve the challenges of integrating emerging technologies with long-term infrastructure and market accessible solutions. Equix brings a wealth of renewable experience and is a trusted partner for CEH. Our focus remains on assembling a team of industry-leading experts and sound execution."

Nicholas Bair

Mark Miller General Manager - Renewables at Equix,

stated, "Equix is looking forward to working with the Alliance partners to design & build this exciting Liquified Green Hydrogen project in Texas. We believe our experience and expertise in renewable and gas infrastructure construction will lead to a successful project that provides green hydrogen to the North American market. We are fortunate to have this opportunity with Clean Energy Holdings and be part of this leading-edge technology platform"

ABOUT CLEAN ENERGY HOLDINGS

Clean Energy Holdings (CEH) is a renewable energy and technology platform focused on developing, owning, and operating leading edge, innovative and reliable renewable energy, and low carbon facilities. CEH is a technology centric platform and, with our Alliance Partners, provides turnkey solutions for innovative projects like Clear Fork Green Hydrogen, the second Green Hydrogen project brought forward by CEH. Further, the CEH projects have been carefully selected to lead various State and Regional initiatives aimed to bring cost effective Green Hydrogen fuel to transportation corridors as well as industrial clients.
