

Oncology Informatics Market by Type, Application and Manufacturers Industry Revenue Analysis and Forecasts by 2027

The increasing prevalence of cancer and rising R&D activities in the cancer informatics field is driving the demand for the market.

VANCOUVER, BC, CANADA, June 15, 2022 /EINPresswire.com/ -- The latest research report serves as a perfect example of the precise analysis of the global [Oncology Informatics Market](#) . It includes the ToC, list of tables and figures, research methodology, geographic segmentation, competitive landscape, future developments, and

technological innovation. Moreover, the report offers the latest coverage of the massive impact of the COVID-19 pandemic on the worldwide Gene Editing industry. The globally-disrupting incidence has impacted nearly every aspect of this business domain. However, the latest study expounds on the present market scenario and forecasts the pandemic's aftermath, with respect

“

Oncology Informatics Market Size – USD 4.62 Billion in 2019, Market Growth - CAGR of 7.1%, Market trends –Advancement in technology.”

Emergen Research

to this industry. Furthermore, the major aspects of the market have been discussed in the report, with expert opinions on the current status of the market.

The global Oncology Informatics market is forecasted to be worth USD 8.01 Billion by 2027, according to a current analysis by Emergen Research. The oncology informatics market is growing due to an increase in the number of cancer patients and the rise in the adoption of advanced technologies.

The increasing prevalence of cancer and rising R&D activities in the cancer informatics field is driving the demand for the market.

oncology informatics with Blockchain technology and increasing investment opportunities in the developing and developed nations such as Brazil, and China, coupled with advancement in the precision medicine technology, are some of the opportunities that will drive the market technology in the coming years. However, despite these benefits, some of the challenges of the market are the dearth of a medical oncologist, the high cost of installation and lack of interoperability. Concerns regarding the data security concerns will also hinder the demand for the product.

Leading companies profiled in the report :

embrace Cibus, Recombinetics, Inc, Merck KGaA, Sangamo, exactitude Biosciences and Editas medication among others.

Key Highlights From The Report. :

PHM or population health management is applied to chronic disease management with extensive data analysis. The purpose of the process is to enhance the patient outcome and overall cost. The information helps in developing actionable treatment steps for individual or specific groups.

Pharmaceutical organizations are primary end-users of the oncology informatics market due to the usage of the solutions, which will increase the workflow of the facilities and enhance the quality of care.

The Asia Pacific region is anticipated to be seeing substantial growth as a result of changes in lifestyles. The increasing incidence of cancer among people is anticipated to propel the cancer immunotherapy market's growth on a global scale. The cancers with the highest levels of mutations include melanoma, lung, bladder, stomach, and esophageal cancer, and it is highly prevalent in the Asia Pacific region.

Segments covered in the report:

For the purpose of this report, Emergen Research has segmented into the global Oncology Informatics Market on the basis of type, end-users, and region:

Type Outlook (Revenue, USD Billion; 2017-2027)

Population Health Management (PHM)

Drug Discovery and Development Informatics

Electronic Health Records (EHRs)

Clinical Decision Support System (CDSS)

Image Analytics

End Users Outlook (Revenue, USD Billion; 2017-2027)

Life Science Industry

Academic Institutes and Research Centers

Pharmaceutical Industry

Contract Research Organizations (CROs)

Others (Hospitals and Other Care Facilities)

Geographic Segment Covered in the Report:

The Oncology Informatics Market provides information about the market area, which is further subdivided into sub-regions and countries/regions. In addition to the market share in each country and sub-region, this chapter of this report also contains information on profit opportunities.

This chapter of the report mentions the market share and growth rate of each region, country, and sub-region during the estimated period.

North America (USA and Canada)

Europe (UK, Germany, France and the rest of Europe)

Asia Pacific (China, Japan, India, and the rest of the Asia Pacific region)

Latin America (Brazil, Mexico, and the rest of Latin America)

Middle East and Africa (GCC and rest of the Middle East and Africa)

Questions addressed in the report:

What is the estimated market growth rate throughout the forecast period?

Which end-use industry is expected to witness the highest demand for Oncology Informatics Market in the near future?

What is the regulatory framework governing the application of Oncology Informatics Market in the food industry?

Which manufacturing processes are utilized for the production of Oncology Informatics Market ?
