The veterinary orthopedic implants market consists of sales of veterinary orthopedic implants and related services. Veterinary orthopedic implants are used by veterinary surgeons for bone fixation surgeries, treating bone fractures in animals, and are usually made of metals like pure commercial titanium (Ti) or titanium alloys, stainless steel, cobalt-chromium (Co-Cr) alloys. The orthopedic implants are also used as a support structure for healing fractures and reconstructive surgeries. Orthopedic implants include screws, plates, pins, and wires which are used in surgeries performed on animals.

## Global [Veterinary Orthopedic Implants Market Trends](#)

According to the veterinary orthopedic implants market trends include companies investing in 3D printing techniques for creating veterinary orthopedic implants. 3D printing in the veterinary orthopedics market is being used for creating printed bone models, surgical guides, and titanium implants. According to the veterinary orthopedic implants market overview, the use of 3D printing reduces the surgical time, cost and removes the engineering complexities in orthopedic procedures. Following the trend, many dogs with bone deformities have been treated by

Langford Veterinary Services, a UK-based provider of veterinary services, through its collaboration with CBM. The collaboration enabled CBM to create 3D printed models of animal implants using titanium Ti6Al4V EL material. The MRI or CT scans are sent from Langford Veterinary Services in Bristol to CBM then produces 3D printed models using Arcam EBM Q10plus machine. CBM is a U.K based company focused on advanced research, product development, and batch manufacturing facility. Thus, the use of 3D printing is one of the latest trends in the veterinary orthopedic implants market and will contribute to the growth of the market.

### Global [Veterinary Orthopedic Implants Market Segments](#)

The global veterinary orthopedic implants market is segmented:

By Product Type: Advanced Locking Plate System, Tibial Plateau Leveling Osteotomy Implants, Tibial Tuberosity Advancement Implants, Total Elbow Replacement, Total Hip Replacement, Total Knee Replacement, Trauma Fixations

By Animal: Dog, Cat, Others

By End-User: Veterinary Hospitals, Veterinary Clinics, Veterinary Surgical Centers
