Hoffert read a quote by the nominator of Active Recovery TMS, which stated, "Immediately after opening, Active Recovery quietly made its mark in Salem, accepting and helping to relieve the suffering of many people with severe depression as well as investing in the community itself."

In her acceptance speech, Vice President of Marketing at Active Recovery TMS, Courtney Marti, emphasized that mental health challenges have increased dramatically during and after the

pandemic. This has made the clinic's work more essential. She added, "We want to thank the Chamber for its incredible support. I've never encountered a chamber that really invests in the success of its member businesses [like the Salem Chamber], and for us, that means more people that we can treat and more lives that we can transform."
