

# Royal Cyber Launches ServiceNow New Employee Rating Card on ServiceNow Platform

*Royal Cyber Inc., rolled out Employee Rating Card using ServiceNow to provide Intuitive Employee Performance Management and unique customer experiences.*

NAPERVILLE, ILLINOIS, UNITED STATES, June 20, 2022 /EINPresswire.com/ --

[ServiceNow Employee Rating Card](#)

makes it effortless to maintain employee information. Personal

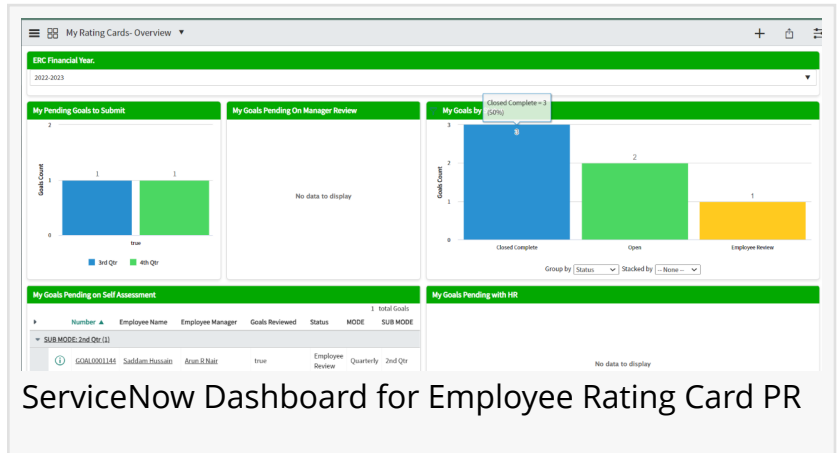

information, joining, qualifications, family, experience, company valuables, KYE (Know Your Employee), and so on are all covered. With KYC attachments, it ensures end-to-end data management. For example, employees would be assigned to departments using the [Employee Rating Card App](#). Depending on your needs, you can create a single or multi-level reporting authority and manage system workflows.

“

The new ServiceNow Employee Rating Card highlights Royal Cyber's increased commitment to assisting enterprises in modernizing their approach to intuitive employee performance management.”

*Syed Basheer, VP*

You can use Employee Rating Card to record each detail of an employee from onboarding onwards, such as personal and family details, previous experience, qualifications, and information provided at the time of joining. You can even upload all the employee's paperwork, so it's always available in the system. That's not all; this module has a slew of features that are hard to come by in a single application. With its user-friendly software, you can manage your employees' lifecycles from hiring to retirement.
