AI & Big Data Expo Announces Free to Attend Conference Agenda and First Round of Speakers at the RAI, Amsterdam

AMSTERDAM, THE NETHERLANDS, June 16, 2022 /EINPresswire.com/ -- AI & Big Data Expo Europe returns to RAI Amsterdam in 2022 as a free to attend, hybrid event; offering guests a wealth of industry developments, news and insights, from Blockchain industry representatives from across the globe who are eager to connect, discover and share experiences and strategies together!

This year's free in-person ticket allows guests full access to all sessions as part of AI & Big Data Expo Europe, including Enterprise AI, AI Strategies and Transformational AI conference tracks over both days. Tickets also allow access to the co-located conference tracks at Blockchain Expo, IoT Tech Expo, Edge Computing Expo and Digital Transformation Week! AI & Big Data Expo 2022 offers the largest number of co-located events to date so guests can discover a variety of key enterprise technology solutions all in one place, under one roof.

Industry Expert Speakers 2022

Year on year the AI & Big Data Expo World Series offers an exceptional standard of industry expert speakers with this year being no exception. With the likes of Formula E, Levis Strauss & Co, GSK, Ebay and Danone at the forefront of this year's line up, guests will benefit from the latest insights into the AI & Big Data enterprise ecosystem whilst hearing from market leaders in the space.

Brooke Gilbertson, Conference Producer for the AI & Big Data Expo world series says "Here at AI & Big Data Expo our goal is to encourage as many people as possible to have a great experience with us, connect, network and learn from others. Our agenda includes the latest AI trends, news and insights and we're delighted to welcome experts from GSK, Levis Strauss & Co. and Formula E who will be speaking and presenting at AI & Big Data Expo".

AI & Big Data Expo Europe 2022 Conference Sessions

This year's conference agenda consists of two days covering enterprise applications of AI & Big Data alongside AI strategies, transformational AI, applied data and analytics, with key topics focusing on machine learning, decision science, RPA, NLP, chatbots and much more!

Expect sessions including:
• Multi-Sensory Inputs with Multimodal Learning
• AI Enabled Healthcare – Aiding the Patient Experience
• Progressing Robotic Process Automation Capabilities
• RPA led Transformation
• AI Leading the Digital Banking Revolution
• Agriculture being Fed by Data
• Data Democratization – Distributing the Workflow
• Data led Intelligent Decision Making
• Keep it in the Locker – Hybrid Data Storage and more!
