

Edge Computing Expo Announces Free to Attend Conference Agenda and First Round of Speakers at the RAI, Amsterdam

AMSTERDAM, THE NETHERLANDS, June 16, 2022 /EINPresswire.com/ -- Edge Computing Expo Europe returns to RAI Amsterdam in 2022 as a free to attend, hybrid event; offering guests a wealth of industry developments, news and insights, from Edge Computing industry representatives from across the globe who are eager to connect, discover and share experiences and strategies together!

This year's free in-person ticket allows guests full access to all sessions as part of Edge Computing Expo Europe, including Enterprise Security and Accelerating Digital Transformation conference tracks over both days. Tickets also allow access to the co-located conference tracks at AI & Big Data Expo, Blockchain Expo, IoT Tech Expo and Digital Transformation Week! Edge Computing Expo Europe 2022 offers the largest number of co-located events to date so guests can discover a variety of key enterprise technology solutions all in one place, under one roof.

Industry Expert Speakers 2022

Year on year the Edge Computing Expo World Series offers an exceptional standard of industry expert speakers with this year being no exception. With the likes of Royal Schiphol Group, SixSq, Spectro Cloud and LISI Aerospace at the forefront of this year's line up, guests will benefit from the latest insights into the Edge Computing enterprise ecosystem whilst hearing from market leaders in the space.

Brooke Gilbertson, Conference Producer for the IoT Tech Expo world series says "Here at Edge Computing Expo our goal is to encourage as many people as possible to have a great experience with us, connect, network and learn from others. Our agenda includes the latest Edge Computing trends, news and insights and we're delighted to welcome experts from Royal

Schiphol Group, SixSq and LSI Aerospace who will be speaking and presenting at Edge Computing Expo”.

Edge Computing Expo Europe 2022 Conference Sessions

This year's conference agenda consists of a one day conference covering enterprise applications of Edge Computing, with key topics focusing on the latest strategies and developments within the Edge Computing Ecosystem.

Expect sessions including:

- Enabling Your Organization's Edge Computing Transformation Journey
- Applications of Edge Cloud Computing in Banking and Financial Services
- The Mobile Edge – How Telcos can Thrive in The Cloud
- Smart Cities of The Future
- Integrating AI and Edge Solutions to Build Competitive Advantage
- Is Edge Computing the Missing Piece in the Innovation Jigsaw?
