analysis, pricing analysis, production consumption analysis, and pestle analysis.

Middle Office Outsourcing Market Dynamics

This section deals with understanding the market drivers, advantages, opportunities, restraints and challenges. All of this is discussed in detail as below:

Drivers

Recent technological advancements

Enterprise session border controller manufacturers are constantly attempting to include new features for a better user experience, thanks to recent technology developments. This is likely to increase market demand for middle office outsourcing market.

High Use of the Internet

The increase in the use of the Internet, along with adoption of new technologies such as AI, machine learning and others accelerate the market growth. The use of middle office outsourcing for reporting and billing, reconciliation, portfolio accounting, and staff augmentation assist in the expansion of the market.

Digital Transformation

The surge in the digital transformation across enterprises accelerate the market growth. The rise in need for these services in investment banking and management firms, asset management companies, stock exchanges, broker- dealers, banks and others has a positive impact on the market.

Additionally, rapid urbanization, change in lifestyle, surge in investments and increased consumer spending positively impact the middle office outsourcing market.

Opportunities

Furthermore, emergence of big data analytics extends profitable opportunities to the market players in the forecast period of 2022 to 2029. Also, increasing digitization and automation of business processes will further expand the market.

Restraints/Challenges

On the other hand, delay in outsourcing process is expected to obstruct market growth. Also, lack of technical skills is projected to challenge the middle office outsourcing market in the forecast period of 2022-2029.

Recent Developments:

In February 2021, Northern Trust Corporation entered into a partnership with IHS Markit, a thinkFolio, multi-asset class investment management platform. Under this, the company integrated its middle office outsourcing platform with IHS's thinkFolio to offer mutual institutional clients innovative solutions and services. This will help the company to serve better the customer's need in the market.

In April 2020, BNP Paribas partnered with BlackRock to deliver integrated end-to-end investment management capabilities to mutual clients. Under this partnership, the company leverages BlackRock's flagship investment operations platform to perform middle-office outsourced services with Aladdin's Investment Book of Record as the trusted source of data. This partnership has helped the company to enhance its offerings and to grow in the market.
