

Good Samaritan Selects BlueStar to Deliver Remote Telehealth

Good Samaritan to provide remote patient monitoring services through a partnership with BlueStar TeleHealth

WASHINGTON, DISTRICT OF COLUMBIA, UNITED STATES, June 16, 2022 /EINPresswire.com/ -- BlueStar [TeleHealth](#) is partnering with Good Samaritan, a nationally recognized network of physicians, services, and health care resources based in southwestern Indiana, to provide quality health care to a 10-county service area in the form of [remote patient monitoring](#), or RPM. RPM puts health equipment in the home, which automatically delivers health information to a nurse-monitoring team.

Covid-19 has led to remote patient monitoring (RPM) becoming far more popular for patients, physicians, and nurses. Good Samaritan wanted to better serve their patients by offering RPM and has chosen to outsource some of that work to BlueStar. BlueStar will help Good Samaritan offer RPM quickly and effectively without burdening its existing staff.

“

We are grateful to be working with a health care provider of Good Samaritan’s caliber to deliver better care to patients in their homes.”

BlueStar’s CEO, retired Admiral Robert Wray

BlueStar’s CEO, retired Admiral Robert Wray, said, “We are grateful to be working with a health care provider of Good Samaritan’s caliber to deliver better care to patients in their homes.”

Good Samaritan’s medical professionals are eager to begin offering remote patient monitoring (RPM) to their patients and believe they will benefit from BlueStar’s turnkey service and support

allowing their medical professionals to maintain their focus on providing excellent healthcare to patients.

About BlueStar TeleHealth
