

PCH Technologies Ranked No. 72 on Channel Futures MSP 501 List 2022

PHILADELPHIA, PA, UNITED STATES,
June 22, 2022 /EINPresswire.com/ --
[PCH Technologies](#) Ranked on [Channel Futures](#) 2022 MSP 501—Tech Industry's
Most Prestigious List of Managed
Service Providers Worldwide

Annual MSP 501 Identifies Industry's
Best-in-Class Businesses
Growing Via Recurring Revenue and
Innovation

JUNE 22, 2022: PCH Technologies has
been named as one of the world's premier managed service providers in the prestigious 2022
Channel Futures MSP 501 rankings.

PCH Technologies has been selected as one of the technology industry's top-performing
providers of managed services by the editors of Channel
Futures. For the past 16 years, managed service providers
(MSPs) from around the globe have submitted applications
to be included in this prestigious and definitive listing. The
Channel Futures MSP 501 survey examines organizational
performance based on annual sales, recurring revenue,
profit margins, revenue mix, growth opportunities,
innovation, technology solutions supported, and company
and customer demographics.

“
The team is honored and
humbled to be recognized
among other top-
performing Managed
Service Providers globally.”
*Timothy Guim, President &
CEO of PCH Technologies*

MSPs that qualify for the list must pass a rigorous review conducted by the research team and
editors of Channel Futures. It ranks applicants using a unique methodology that weighs financial
performance according to long-term health and viability, commitment to recurring revenue, and
operational efficiency.

Channel Futures is pleased to name PCH Technologies to the 2022 MSP 501.

"This year, even with the growth we have experienced, our team has continued to provide the highest quality services to our clients while executing plans for operational efficiency that will allow us to continue to scale," said Timothy Guim. "The team is honored and humbled to be recognized among other top performing Managed Service Providers globally."

This year's list once again attracted a record number of applicants, making it one of the most competitive in the survey's history. Winners are being recognized on the Channel Futures website and will be honored at a special ceremony at the Channel Futures MSP Summit + Channel Partners Leadership Summit, Sept. 13-16, in Orlando, Florida.

Since its inception, the MSP 501 has evolved from a competitive ranking into a vibrant group of innovators focused on high levels of customer satisfaction at small, medium, and large organizations in the public and private sectors. Today, many of their services and technology offerings focus on growing customer needs in the areas of cloud, security, collaboration, and support of hybrid workforces.

"The 2022 Channel Futures MSP 501 winners are the highest-performing and most innovative IT providers in the industry today," said Allison Francis, senior news editor for Channel Futures. "The 501 has truly evolved with the MSP market, as showcased by this year's crop of winners. This is also the fifth consecutive year of application pool growth, making this year's list one of the best on record."

"We extend our heartfelt congratulations to the 2022 winners, and gratitude to the thousands of MSPs that have contributed to the continuing growth and success of the managed services sector," said Kelly Danziger, general manager of Informa Tech Channels. "These providers are most certainly driving a new wave of innovation in the industry and are demonstrating a commitment to moving the MSP and entire channel forward."

The complete 2022 MSP 501 list will be available on Channel Futures' website on Monday, June 20th.

Background

The 2022 MSP 501 list is based on confidential data collected and analyzed by the Channel Futures editorial and research teams. Data was collected online from Feb. 1-April 30, 2022. The MSP 501 list recognizes top managed service providers based on metrics including recurring revenue, profit margin, and other factors.

About PCH Technologies

Founded in 1997, PCH Technologies, is a SOC2-certified cybersecurity and IT firm headquartered in the Philadelphia market serving clients locally, nationally, and internationally. The services we specialize in are cybersecurity, compliance services, cloud computing, and IT managed services

leveraging artificial intelligence. We serve small to mid-sized businesses in the financial, construction, manufacturing, and pharmaceutical industries.

What makes us different from other IT support and cybersecurity options is that we will make certain – once your network is up – it stays up. With the redundancies and offsite options available to us, our clients' downtime has quickly become a thing of the past. We pride ourselves on keeping your systems safe and secure while demonstrating consistent professionalism by being on time and on budget.

About Channel Futures

Channel Futures is a media and events platform serving companies in the information and communication technologies (ICT) channel industry with insights, industry analysis, peer engagement, business information, and in-person events. We provide information, perspective, and connection for the entire channel ecosystem. This community includes technology and communications consultants, integrators, sellers, MSPs, agents, vendors, and providers.

Our properties include the Channel Futures MSP 501, a list of the most influential and fastest-growing providers of managed services in the technology industry; Channel Partners events, which deliver unparalleled in-person events including Channel Partners Conference & Expo, the MSP 501 Summit, and Channel Partners Europe; and Allies of the Channel Council (ACC) and DEI Community Group, our initiatives to educate, support and promote diversity, equity and inclusion (DE&I) in the ICT channel industry. Channel Futures is where the world meets the channel; we are leading Channel Partners forward. More information is available at channelfutures.com.

Channel Futures is part of Informa Tech, a market-leading B2B information provider with depth and specialization in the ICT sector. Every year, we welcome 14,000+ subscribers to our research, more than 4 million unique monthly visitors to our digital communities, 18,200+ students to our training programs and 225,000 delegates to our events.
