EATONTOWN, NJ, US, June 22, 2022

/EINPresswire.com/ -- [Aspire](#)

[Technology Partners](#), a leading systems integrator specializing in the delivery of digital infrastructure solutions and managed services, now offers [Aspire](#)

[Managed Detection and Response](#) (MDR) on the AWS Marketplace.

ASPIRE

Powering Business Transformation™

Aspire Technology Partners

Aspire MDR provides 24x7 threat monitoring, detection, and response capabilities across cloud, network, and endpoints. Delivered from Aspire's Network & Security Operations Center (NSOC), Aspire MDR leverages an advanced security operations platform combined with integrated threat intelligence, automation, and defined response playbooks to rapidly detect, analyze, investigate and actively respond through threat mitigation and containment.

“

Aspire MDR on AWS Marketplace allows us to expand our reach to enable our team of experienced security analysts and incident responders to help protect organizations against cyber threats.”

John C. Harris, President & CEO of Aspire

“The evolving threat landscape is full of bad actors determined to find a way into organizations' networks. The scarcity of qualified, trained cybersecurity specialists and the potential for a successful attack grows exponentially every day,” said John C. Harris, President & CEO of Aspire.

“Aspire MDR on AWS Marketplace allows us to expand our reach to enable our team of experienced security analysts and incident responders to help protect organizations against cyber threats.”

Aspire acts as an extension of your IT team with advanced security operations capabilities remotely delivered by dedicated security analysts with knowledge of your environment. This enables faster detection and remediation actions to effectively safeguard your business.
