## Rise in Bakery Consumption Driving Demand for Yeast

Bread and consumption of bakery products have been continuously increasing across the world. The progressive increase in consumption of bakery products is due to continuous population growth in various parts of the world.

The European market is dominant in the consumption of bakery items due to rise in per capita consumption of bakery products in countries such as France, Germany, Italy, the Netherlands, and Spain. Around 60% of flour produced in the U.K. is utilized in the production of bread goods, with the remaining 40% is used in a wide range of culinary products.

The influencing factor for the high consumption of bakery products in developing economies of Asia Pacific (China, India, Australia, etc.) is urbanization, increasing disposable income, adoption of western lifestyle, etc.

The increasing consumption of bakery items is increasing in the global market, which indirectly fuels the demand for yeast in the global market, as yeast is a vital ingredient that is used in the preparation of bread or bakery items on a large scale.

#### Alcohol Consumption Driving Sales in Yeast Market

The consumption of alcoholic beverages is increasing in both developed and developing economies. Beer, whisky, and wine are the most popular alcoholic beverages that are consumed at a higher rate than other beverages. The global sales of alcoholic beverages are also driven by the marketing and promotion of alcohol globally.

Yeast is one of the most important ingredients in the preparation of alcoholic beverages, including beer, wine, and whiskey. In alcoholic beverages, yeast is utilized to enhance texture and flavor.

Thus, increasing consumption of such alcoholic beverages is expected to propel the market for yeast.

#### Increasing Demand for Fermented Foods to Drive Yeast Market

Fermented foods contain microorganisms such as yeast that has several health benefits and used as probiotics. Probiotics have been proven to be effective as dietary supplements by offering health benefits to the consumers.

Beneficial effects that consumers obtain from the consumption of yeast are production of vitamins, cholesterol reduction, enzymes and folates, and antibacterial & antioxidant activity as well as enhancement of the immune system.
