How does the Temple Trolley help those on the Autism Spectrum and neurodivergent?

The Temple Trolley is a free-standing, inclusive piece of sensory playground equipment designed to provide sensory relief to those on the Autism spectrum. While you glide from one end to the other, the unique swivel carriage offers 360° of excitement. What is her experience with sensory playground equipment?

Inspired by a mechanism her school made from old barn tracks when she was young, Dr. Temple Grandin collaborated with PPS to craft the Temple Trolley. In fact, her "Different...Not Less," mantra aligned with Play and Park Structures' mission.
