Some Key Highlights From the Report :

In June 2019, North American business unit of The Brenntag Food & Nutrition made an announcement about signing a new distribution contract with AB Enzymes, Inc. to distribute its enzymes in Canada and US.

Among the source segments, microorganisms segment accounted for largest revenue share in 2020. Enzymes produced from microorganisms, including bacteria, fungi, and yeast, find extensive use in various food preparations to enhance texture and flavor. These are the favored enzyme sources owing to offering of various benefits, including cost-effectiveness, ease and consistent production. Also, these enzymes are more stable as compared to animal and plant sources.

Among the type segments, protease segment accounted for significantly large revenue share in 2020. Protease helps in several vital body functions, such as aiding food breakdown for energy. These enzymes help in reducing inflammation and ease body pain, including joint pain.

Competition in the Food enzymes market :

The Food enzymes market report contains information on leading vendors' product launches, sustainability, and prospects, such as: Key players in the market include Amano Enzyme Inc., Enzyme Bioscience Pvt. Ltd., DuPont, Royal DSM, Biocatalysts Ltd., Novozymes, Kerry Group, Associated British Foods PLC, Puratos Group, and Chr Hansen Holding A/S.

The Global Food enzymes market report assesses the historical and current data along with a thorough analysis of the market dynamics. The report also sheds light on the significant market growth driving and restraining factors that are anticipated to influence the market growth through the forecast period. The report explores the effects of the pandemic on the market and its key segments and regions. It also offers a forecast estimation of the market growth in a post-COVID-19 scenario.

Emergen Research has segmented the global food enzymes market on the basis of source, product type, application, and region:

Source Outlook (Revenue, USD Million; 2018–2028)

Microorganisms

Animals

Plants

Product Type Outlook (Revenue, USD Million; 2018–2028)

Carbohydrase

Amylase

Cellulase

Lactase

Others

Protease

Lipase

Polymerases

Nucleases

Others

Application Outlook (Revenue, USD Million; 2018–2028)

Food

Bakery & Confectionery Products

Meat Products

Dairy Products

Nutraceuticals

Others

Beverages

Brewing Products

Juices

Fortified Beverages

Others

Region wise performance of the Polyaryletherketone industry

North America Food enzymes market forecast is expected to remain significantly positive in terms of revenue share between 2022 and 2028 . In addition, North America Food enzymes market revenue share is expected to remain comparatively larger than that of other regional markets from 2022 to 2028 .

Asia Pacific registered fastest revenue CAGR in 2022, and the Food enzymes market forecast is that this trend is expected to continue going ahead. Market forecast states that revenue share contribution from China, India, and South Korea is expected to remain robust till 2028 .

Europe Food enzymes market forecast is positive currently, with revenue growth expected to remain steady between 2022 and 2028 . Robust focus on research and development initiatives by major firms and changing trends and demographics in countries in the region are some factors expected to continue to support Food enzymes market growth.

Global Food enzymes market has been classified into the subsequent geographical segments:

North America (U.S., Canada, Mexico)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

Key questions answered in the report:

What will the Food enzymes market growth rate be?

What are the primary factors propelling the Global Food enzymes market ?

Who are the market's leading manufacturers?

What are the market's opportunities, threats, and market structure?

What are the top manufacturers' sales, revenue, and price analysis in the Food enzymes market ?

Who are the Food enzymes market distributors, traders, and dealers?

What are the Food enzymes market opportunities and threats that vendors in the Global Polyaryletherketone industries are confronted with?
