Dental lasers are specific devices used in oral surgeries. These devices are highly suited for dental procedures and are increasingly replacing conventional dental surgical instruments like dental drills, dental anesthetics, and hand pieces. Dental lasers are comparatively safer and more efficient and are widely used in dental procedures such as hard tissue and soft tissue procedures. These devices find extensive application in various hard tissue procedures including cavity detection, tooth preparations and dental fillings, and treatment for tooth sensitivity, as well as soft tissue procedures such as crown lengthening, removal of soft tissue folds, teeth whitening, and treatment of gummy smiles and tongue frenulum attachment. Most dental lasers in commercial use are FDA-approved and are said to be more comfortable and cost-effective as compared to other non-laser tools. Moreover, these devices offer other significant advantages such as lower light exposure, reduced contamination, lesser bleeding, quicker healing time, and higher portability.

Some Key Highlights in the Report:

Based on product type, the diode lasers segment is the leading segment, with the highest revenue share in 2020. Diode lasers are highly portable, user-friendly, and cost-efficient, and are extensively used in soft tissue surgery. Growing consumer preferences for minimally invasive dental procedures and surging use of diode lasers in orthodontic surgeries are expected to

boost this segment's growth.

Based on application, the oral surgery segment is expected to account for largest revenue share over the forecast period, owing to rapidly increasing patient pool, surging awareness about oral hygiene, and growing demand for dental aesthetics, especially among the young and adult populations.

The dental lasers market in North America is expected to register the highest revenue CAGR of 6.7% during the forecast period. Increasing incidences dental disorders such as dental caries, gingivitis, and oral cancers, rising awareness about oral hygiene, and the region's advanced healthcare infrastructure are among the key factors driving the North America market growth.

In April 2021, Biolase, Inc., a leading manufacturer of dental lasers, and renowned endodontic products company EdgeEndo announced the co-development of a new Laser-Assisted Microfluidic Irrigation device, dubbed EdgePRO. The new device is a cutting-edge solution for endodontists and offers advanced cleaning and disinfection techniques.

Top players profiled in the report include:

Biolase Inc., AMD LASERS, FOTONA D.D., Convergent Dental, Ivoclar Vivadent AG, Danaher, Sirona, Syneron Dental, ZOLAR Technology & Mfg. Co. Inc., THE YOSHIDA DENTAL MFG. CO. LTD., and CAO Group Inc.

Product Type Outlook (Revenue, USD Billion; 2019-2030)

- Erbium Laser
- Diode Laser
- Carbon dioxide laser
- Others

Application Outlook (Revenue, USD Billion; 2019-2030)

- Tooth decay
- Gum disease
- Tooth whitening
- Biopsy or lesion removal
- Others

Geographic Segment Covered in the Report:

The Dental Lasers report provides information about the market area, which is further

subdivided into sub-regions and countries/regions. In addition to the market share in each country and sub-region, this chapter of this report also contains information on profit opportunities. This chapter of the report mentions the market share and growth rate of each region, country, and sub-region during the estimated period.

North America (USA and Canada)

Europe (UK, Germany, France and the rest of Europe)

Asia Pacific (China, Japan, India, and the rest of the Asia Pacific region)

Latin America (Brazil, Mexico, and the rest of Latin America)

Middle East and Africa (GCC and rest of the Middle East and Africa)

Summary of the Dental Lasers Market Research Report:

Insightful information regarding the global Dental Lasers market

Strategic recommendations for the investment opportunities

The report covers significant statistics related to the industry along with products, applications, price analysis, demand & supply, and production and consumptions rate

Emerging trends and current market segment analysis to help investors formulate new business strategies

Thorough SWOT analysis and Porter's Five Forces analysis along with feasibility analysis and investment return analysis

About Reports and Data

Reports and Data is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients to make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, TouchPoints, Chemicals, Products, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Reports and Data has a strong base of experienced analysts from varied areas of expertise. Our

industry experience and ability to develop a concrete solution to any research problems provide our clients with the ability to secure an edge over their respective competitors.
