The surgical sutures and staples market consists of sales of surgical sutures and staples and related services. Surgical sutures and staples are medical devices used by surgeons to hold skin, internal organs, blood vessels, or any other tissues together after they have been severed during surgery. Sutures and staples hold incised body parts together until they are completely healed.

[Global Surgical Sutures and Staples Market Trends](#)

The use of disposable surgical sutures and staple devices is an emerging trend in the surgical sutures and staples market. This is mainly due to heightened concerns regarding communicable infections associated with the use of reusable sutures and staple devices for surgeries.

Disposable surgical sutures and staple devices are designed in such a way that they are discarded after one use and cannot be reused. In this regard, the Centers for Disease Control
