According to 'Warehouse Management
System Global Market Report 2022 –
Market Size, Trends, And Global
Forecast 2022-2026' published by The

Business Research Company, the [WMS market size](#) is expected to grow from \$2.39 billion in 2021 to \$2.74 billion in 2022 at a compound annual growth rate (CAGR) of 14.77%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global warehouse management market size is expected to reach \$4.83 billion in 2026 at a CAGR of 15.15%. Increasing demand from e-commerce companies for larger warehouses with better tracking and forecasting is expected to drive the warehouse management system market growth.
