

Agencies Search Engine Optimization Services Market Players Enhance User Experience With Visual Content

The Business Research Company's Agencies Search Engine Optimization Services Market 2022 - Opportunities And Strategies – Global Forecast To 2030

LONDON, GREATER LONDON, UK, June 23, 2022 /EINPresswire.com/ --

Agencies SEO services providers are focusing more on visual content, especially video content to drive user engagement. Visual content such as photo and video, and new visual content mediums such as 'stories' and 'live streaming' continue to dominate social media. According to the agencies search engine optimization services market overview, video content helps companies to engage with their audience and enhance user experience. An SEO-optimized video published on YouTube improves visibility in Google search results. Companies such as Amazon, Google and Pinterest are developing powerful visual search engines to capitalize on this trend. It is estimated that video content will account for 82% of all consumer internet traffic by 2021, providing significant potential for SEO-optimized video content. The power and evolution of visual platforms such as Instagram and Pinterest have highlighted the requirement that businesses need to think in terms of images and visual content. There are 12 types of visual content such as data-driven visuals, quotes, infographics, gifographics, GIFs, memes, videos, screenshots, slide-share presentations, photos, illustrations, and flipbooks.

The global [agencies search engine optimization services market size](#) is expected to grow from \$37.85 billion in 2020 to \$83.63 billion in 2025 at a compound annual growth rate (CAGR) of 17.2%. The global agencies search engine optimization services market share is expected to grow to \$176.16 billion in 2030 at a compound annual growth rate (CAGR) of 16.1%.
