Increasing adoption of specialized shipping containers in the aerospace sector is expected to propel growth of the global shipping containers market over the forecast period. The aerospace sector uses specialized shipping containers to transport parts of space telescopes. For instance, in October 2020, NASA reported that James Webb Space Telescope is scheduled to move forward into the last full extension of its iconic primary mirror and sunshield followed by a full systems evaluation before being encapsulated in a specialized shipping container for transport to South America.

Moreover, emergence of Covid-19 is also expected to aid in growth of the global shipping containers market. For instance, in July 2020, Singamas Container Holdings Limited delivered a mobile Polymerase Chain Reaction laboratory for COVID-19 testing to the Shanghai Pudong Airport. The mobile laboratory can handle a maximum of 1,500 specimens a day. It consists of three functional rooms including the reagent preparation room, specimen processing room and PCR test room.
