design and modern feel, they offer a timeless look which fits in with any home. Not only are window shutters a practical solution, but they also bring a decorative statement piece into a kitchen, and because Eden House Shutters custom-make each set of plantation shutters, they are guaranteed to fit any window shape perfectly.

Et Lorem believes that kitchens should be designed and installed with love by professionals who take pride in their workmanship and attention to detail, however, their designs are not just about aesthetics, kitchens must be functional and practical, which is why plantation shutters are an ideal solution. They offer privacy, security, and energy efficiency to a home, as well as helping to make smaller kitchens appear larger, as there is no need for complicated drapery or curtains that take up space on the windowsills.

By working closely with Et Lorem, they can create a space that perfectly reflects an individual's personality, tastes and lifestyle. From the layout and cabinetry to the work surfaces and appliances, every element of the bespoke kitchen design will be designed with the customer in mind. Plantation shutters are becoming an increasingly popular option for window-dressing treatments, they not only look luxurious and elegant, but they are also low-maintenance, durable, and will add value to the home.

For their statement kitchen showroom, Et Lorem opted for full-height plantation shutters in a stunning grey colour to match their decor. Plantation shutters come in a variety of designs and styles such as full-height shutters, café-style shutters, or tier-on-tier shutters, and are available in a huge range of colours.

Et Lorem and Eden House Shutters really are a match made in heaven, providing their customers with the highest levels of bespoke products and services.
