

Sasquatch Junk Removal offers Junk Removal Services in Seattle, WA

Sasquatch Junk Removal provides junk removal services for residential and commercial clients in the Seattle Metro area.

SEATTLE, WASHINGTON, UNITED STATES, July 1, 2022 /EINPresswire.com/ -- The urge to declutter a space happens at any time of the year since junk removal is an essential part of life. Most times, people think they can remove junk on their own, as long as they have a truck or know someone who does. Once they have a truck, they can round up a few friends, employees, or family members to save time and money, compared to hiring a professional [junk removal company](#). While this sounds ideal, there are risks such as injuries, incorrect disposal methods, and underestimation of the job.

Sasquatch Junk Removal advises property owners to hire a junk removal company to maximize the benefits of waste hauling/disposal services. As a family-owned and operated company, the team approaches each client with respect, understanding, compassion, and care, ensuring their junk removal needs are met. The owner is involved with every cleanup at every stage. His hands-on approach allows clients to experience the advantage of having someone with a vested interest in the company instead of a disinterested hourly employee. This approach has earned the company many 5-star reviews, positive testimonials, and long-term relationships.

Sasquatch Junk Removal focuses on [bulk trash pickups](#) for backyards, garages, home/office move-out, and remodeling debris. Their single-item pickup service makes it easy for individuals to get rid of a few things without having to pay for a truckload. The company offers curbside pickups at a discounted rate for clients who are donating, recycling, or getting rid of unwanted items such as couches, dressers, washers/dryers, pianos, furniture, lawnmowers, treadmills, refrigerators, and many more. Check Out Our Junk Removal Service to learn more about bulk

and single item junk removal services.

Throwing appliances into a landfill harms the environment and endangers the community. To get rid of or recycle old/malfunctioned appliances, clients can call Sasquatch Junk Removal. Once they haul away fridges, microwaves, dishwashers, water heaters, toasters/ovens, or AC Units, they decide if they can be repaired/gifted to a family that needs them or safely recycled. The team also loads bagsters from curbs, backyards, or garages without size or weight restrictions.

Additionally, the junk removal company offers commercial [property cleanups](#) and estate sale cleanups. From complete trash-outs to furniture office tear-downs, their commercial hauling and removal team has the experience to work through high-rise buildings, storefronts, warehouses, and other service buildings. The company regularly works with property managers, realtors, developers, tenants, and building owners.

Sasquatch Junk Removal is also an affordable option for renting small to medium-sized dumpsters for residential needs. Browse Our Website to discover our residential, retail, and commercial cleaning services, or call (425) 892-4509 to get an accurate quote. We're located at Seattle, WA.
