

# Mailing List Website has databases for active followers of the activist Greta Thunberg in the United States.

*Reach the TOP environmental donors in the US and Canada with this database*

LAS VEGAS, NV, UNITED STATES, July 18, 2022 /EINPresswire.com/ -- [Sprint Data Solutions Worldwide Marketing](#) is committed to helping businesses, charities, or other organizations to reach these Greta Thunberg followers around the country. The company serves businesses that deal directly with other companies through business postal mailing lists. These include details like names and corporate titles.

Other businesses put offer their products or services to the general public. In these cases, consumer postal mailing lists are more appropriate. The lists can be divided by geographic needs or even more precise demographic breakdowns if required. Sprint Data Solutions Worldwide Marketing can help whether a business is B2B or targets the retail consumer.

## The Start Of Sprint Data Solutions Worldwide Marketing

Sprint Data Solutions Worldwide Marketing first began as the dream of a disabled veteran who would become the founder. After completing the responsibilities expected of military duty, it was decided to shift direction from defense to growth, specifically in the economy. This would be done by helping the businesses to accumulate what is most meaningful for development, new clients, or customers. A small start-up was formed to pursue this goal, and today the company

Greta Followers & Supporters Mailing List

proudly boasts a staff with over 50 years of combined experience in the marketing industry.

Sprint Data Solutions Worldwide Marketing dove into the marketing industry during a transitional period. Television advertising and other traditional marketing strategies still dominated the field, but a new contender in digital marketing already showed promise. The company entered the industry in a traditional area, direct mail, but this imparted crucial data-centric lessons about data acquisition, organization, and analytics. When digital marketing proved to be a game-changer faster than anticipated, Sprint Data Solutions Worldwide Marketing enjoyed an early mover advantage with its skill set, leading to rapid gains for both the company and its clients.

Fast forward to today, and Sprint Data Solutions Worldwide Marketing has moved well past its limited initial service range of only its hometown, Las Vegas, Nevada. The rest of the United States is now provided for, including Hawaii and Alaska. Businesses ready to cross borders can also get listings for markets in the rest of the continent, like Canada and Mexico. Even companies prepared to go international across the Atlantic can get a head start with databases for European Union markets like France.

#### A Lightning Rod For Action

Throughout contemporary history, there have always been figures that have inspired youth, even calling them to positive action.

In the modern era, one such person is Greta Thunberg, a young activist from Sweden who has been getting the attention of both her own generation and important heads of state for her fight to bring climate change under control as the planet's industries continue to push the

environment past the point of a safe recovery.

Greta's attention from traditional media and online Internet-based media has made her one of the early global activist figures of the 21st century. She has challenged younger generations to take an interest in their future. She has drawn attention and passion to issues that younger people worldwide might have previously ignored. Because of Greta Thunberg, there is now a broader range of environmental and political interests that weren't previously there before.

### An Opportunity For The Right Causes

[Because of Greta Thunberg's galvanizing influence, marketing and awareness](#) initiatives for topics that normally wouldn't interest youth have new relevance. However, this impact is at its greatest with those who are active followers of Greta Thunberg. When someone is a confirmed follower, there is a much higher likelihood that environmental-based causes, products, and services will have a higher level of engagement and response.

Charities and products or services focusing on climate change are worthy goals, but they have their greatest impact on people with an active interest. For the most marketing effectiveness, these elements are most compatible with those that have already indicated being active followers of Greta Thunberg. It makes the most sense, then, to target this demographic and get a higher level of interest, engagement, and ultimately a positive response.

### Finding The Followers

Sprint Data Solutions Worldwide Marketing lists of active Greta Thunberg followers all over the United States. It's possible to market directly to all the followers nationwide. However, these needs can also be scoped down as required, for only Greta Thunberg's followers in a particular region, like New England, or a specific state such as California. It's even possible to narrow things down to only the followers in a neighborhood in a particular city, such as Greta Thunberg's followers in Haight-Ashbury in San Francisco.

Sprint Data Solutions Worldwide Marketing can also divide Greta Thunberg's followers by demographic requirements. So if a cause appeals more to African American followers, or followers between 20-30, or even categories based on economic class, such as high net worth followers of Greta Thunberg, then these categorizations can be made available.

There are also a variety of different contact details available as needed. Physical mailing addresses are standard, but email addresses are available for digital marketing efforts. Telephone numbers can be provided for those who prefer telemarketing approaches, and even cellular numbers are available for SMS/Text based marketing efforts.

For those businesses interested in managing a direct mail campaign but lacking experience, turnkey direct mail solutions are available. This special service carefully guides clients through all steps of the direct mail process from planning, printing, and finally distribution, all under one roof. This also eliminates the usual need to source and vet different vendors for the various

stages of the direct mail process.

If you'd like to reach out to active [Greta Thunberg followers around America](#), contact [Sprint Data Solutions](#) Worldwide Marketing. When you work with us, you support an American company owned and operated by a disabled veteran.
