Bay Area residents struggling with unhealthy mouth issues or troublesome dentures may be ready to take the next step of setting up an implant consultation.

"The months of June through August can be the perfect time to begin looking at dental implant surgery. A business may be slow while people are vacationing around the summer months. It's a great opportunity to plan for a better smile," explained Dr. Alex Rabinovich, chief oral surgeon of San Francisco Dental Implants. "If surgery is scheduled in the summer, patients can recover with a beautiful, healthy smile by fall."

Interested readers can read the new post at <https://www.sfdentalimplants.com/blog/dental-implants-are-the-best-option-for-missing-teeth-ours-are-affordable-dental-implants/>. As the new post explains, the state-of-the-art oral surgery clinic based in San Francisco provides top-quality materials to help ensure the longevity of dental implant procedures. The clinic offers oral surgery (<https://www.oral surgery-sf.com/>) to fix or replace missing or broken teeth, as well as many other procedures.

The best type of dental implant surgery, however, may vary by individual. It is not "one size fits all." The public can check the information page to learn more about dental implant specialists at <https://www.sfdentalimplants.com/our-advantage/>. Bay Area residents ready to review options for dental implants can then reach out to the clinic for a no-obligation consultation. Those looking for aesthetic or cosmetic surgery are urged to visit the sister website at <https://visage-sf.com/>.

## SUMMER COULD BE THE TIME TO FIND THE BEST DENTAL IMPLANTS IN SAN FRANCISCO

Here is the background for this release. A Bay Area resident struggling with unhealthy oral issues, such as broken or missing teeth, may not have the time away from work or family responsibilities to deal with their teeth or oral issues. However, the summer might provide a window of opportunity. If an individual experiences a slower schedule during the summer months, it might be the right time. Indeed, dental implant surgery during the summer could help ensure a healthy, beautiful smile by the fall season.
