The exterior wall systems market consists of sales of exterior wall systems by entities (organizations, sole traders, and partnerships) that are used as an envelope to an outer wall of a building to protect the covered interior from the external environment. An exterior wall system is the main concept in building design and construction that creates a wrapper around the masonry structure to protect it from environmental influences.

## [Global Exterior Wall Systems Market Trends](#)

Product innovations are a key trend gaining popularity in the market. According to the exterior wall systems market research, companies in the market are launching new, innovative products. For instance, in March 2021, DuPont, a US-based chemicals company, launched new DuPont™ Tedlar® polyvinyl fluoride (PVF) film for laminating exterior wall and roofing panels. Similarly, in February 2019, DuPont announced the launch of DuPont Tyvek DrainVent Rainscreen to provide advanced protection against moisture damage in exterior wall systems.
