

Allied Modular Announces Ambitious Website Reboot Focused on Solutions for Modular Office and Modular Building Projects

Allied Modular Building Systems is proud to announce an ambitious website reboot.

ORANGE, CALIFORNIA, UNITED STATES, June 28, 2022 /EINPresswire.com/ -- [Allied Modular Building Systems](https://alliedmodular.com/), a best-in-class manufacturer of [modular offices](https://alliedmodular.com/) and modular buildings at <https://alliedmodular.com/>, is proud to announce an ambitious website reboot. The newly updated website content will help clients more easily find best-in-class solutions for their modular office and modular building projects.

"Our website is our front door and many new clients find us as they struggle to find top-rated manufacturers of modular offices and modular buildings," explained Kevin Peithman, CEO. "We encourage clients to visit our newly updated website over the next few months as we roll out content improvements. Even better, anyone interested in a modular construction project is encouraged to reach out for a customized quotation."

“

Our website is our front door and many new clients find us as they struggle to find top-rated manufacturers of modular offices and modular buildings.”

Kevin Peithman

Persons who would like to explore the newly updated website can visit <https://alliedmodular.com/>. Persons looking to explore "modular office" ideas, for example, can visit the newly updated information page at

<https://alliedmodular.com/modular-offices/>. As that page explains, one of the company's most popular products is its modular office. Modular offices have provided companies across the United States and abroad with a solution that saves them time and money while maximizing space and providing valuable office space. Indeed, Allied Modular's wall systems are designed to be installed quickly without costly downtime or disruption to a facility. The company's factory-

trained installation team will get the modular office up and running in no time. In addition to being incredibly durable, modular wall systems are almost completely maintenance-free.

BACKGROUND ON MODULAR CONSTRUCTION

As the new content explains, prefabricated modular offices and prefab construction can save companies time and money. For example, prefab modular wall systems are installed very quickly without downtime or intrusions and these products offer unique tax benefits not found with traditional methods of construction. In addition, all products come with the added benefit of customizable options based on your needs. In addition to a wide variety of colors and finishes, modular construction also offers various options for doors, windows, and wall thicknesses all prefabricated at the company's facility. Indeed, Allied's modular wall systems are built under factory controlled conditions which yields a superior product and an efficient, green building process.

ADDITIONAL WEBSITES IN THE PROJECT

Beyond modular construction, the company offers several new "sister websites" focused on specific areas. Allied Cleanrooms (<https://alliedcleanrooms.com/>) focuses on cleanroom technology. Zonez (<https://zonez.com/>) focuses on office pods and meeting pods. And, MachineEnclosure.com (<https://machineenclosure.com/>) focuses on machine enclosures. In all cases, the manufacturing capability is best-in-class and made in USA. Interested persons can visit each website (all announcing new content upgrades for summer 2022) and request a customized quote.

ABOUT ALLIED MODULAR SYSTEMS INC.

Allied Modular Building Systems (<https://alliedmodular.com/>) is a best-in-class modular building manufacturer. The company is a pre-fab supplier not just of modular buildings but also of modular offices, modular enclosures, and partitions and walls for manufacturing, offices and commercial, and even schools. From modular warehouses to retail walls, guardhouses and [security shacks](#), to even mezzanines, its top-rated manufacturing technology has bested the industry for over thirty years. With partner companies, Allied Modular even supplies machine enclosures, CNC enclosures, and cleanrooms.
