

Global Orthobiologics Devices and Equipment Market Size And Market Growth Opportunities

The Business Research Company's Orthobiologics Devices And Equipment Global Market Report 2022 – Market Size, Trends, And Forecast 2022-2026

LONDON, GREATER LONDON, UK, June 27, 2022 /EINPresswire.com/ -- According to 'Orthobiologics Devices and Equipment Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026' published by The

Business Research Company, the <u>orthobiologics devices and equipment market</u> share is expected to grow to \$5.32 billion in 2026 at a CAGR of 7.2%. The aging population profile of most countries contributed to the orthobiologics devices and equipment market growth globally.

The orthobiologics devices and equipment market consists of sales of orthobiologics devices and equipment. Orthrobiologics devices are implants composed of cells and proteins naturally found in the human body that provides accelerated healing by stimulating efficient regrowth of musculoskeletal tissues including bones, cartilage, tendons, and ligaments. They consist of tissues and bone replacement materials used for the recovery of ligaments, tendons, muscles, and bones.

Global Orthobiologics Devices and Equipment Market Trends

Biodegradable implants are increasingly being used in orthobiologics treatment and trauma orthopedic surgeries. Biodegradable implants are used to replace a missing biological structure, support a damaged biological structure, and enhance the existing bone structure. Biodegradable products such as re-absorbable polymers composed of polyglycolic acid and polylactic acid manufactured in the form of plates, screws, and pins are replacing traditional devices like plates and screws which are more expensive. According to the orthobiologics devices and equipment market analysis, surgeons are preferring biodegradable implants to replace conventional

implants, as biodegradable implants can be engineered to provide temporary support for bone fractures, can degrade at a rate matching new tissue formation, eliminate the need for the second surgery, and are highly useful in fracture fixation in children with less implant-related infections. For instance, Stryker Corp. offers orthobiologics such as bone repair biodegradable products that are used in bone regeneration and bone healing, soft tissue regeneration, and muscle connection to bone.

Global Orthobiologics Devices and Equipment Market Segments

The global orthobiologics devices and equipment market is segmented:

By Product Type: Demineralized Bone Matrix, Synthetic Bone Substitutes, Stem Cell Therapy, Plasma-Rich Protein, Viscosupplementation, Bone Morphogenetic Protein, Synthetic Orthobiologics

By Application: Osteoarthritis and Degenerative Arthritis, Soft-Tissue Injuries, Fracture Recovery, Maxillofacial and Dental Applications, Spinal Fusion, Trauma Repair, Reconstructive Surgery

By End-Use: Hospitals, Orthopedic Clinics, Others

By Geography: The global orthobiologics devices and equipment market report is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America accounts for the largest share.

Orthobiologics Devices and Equipment Global Market Report 2022 is one of a series of new reports from The Business Research Company that provides orthobiologics devices and equipment global market overviews, analyzes and forecasts market size and growth for the global orthobiologics devices and equipment market, orthobiologics devices and equipment market share, orthobiologics devices and equipment market segments and geographies, orthobiologics devices and equipment market players, orthobiologics devices and equipment market leading competitor revenues, profiles and market shares. The orthobiologics devices and equipment market report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

TBRC's Orthobiologics Devices and Equipment Global Market Report 2022 includes information on the following:

Data Segmentations: Market Size, Global, By Region and Country, Historic and Forecast, and Growth Rates for 60 Geographies

Key Market Players: Medtronic, Arthrex Inc, DePuy Synthes (A Subsidiary of Johnson & Johnson), Stryker Corporation, Zimmer Biomet, Bioventus LLC, Baxter International Inc, Integra Lifesciences Holding Corporation, Nuvasive INC, and Sanofi.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

And so much more.

Orthopedic Accessories Global Market Report 2022 – By Type (Bone Cement, Casting System, Removal System), By Application (Hip, Knee, Spine), By End User (Hospital, Orthopedic Clinic, Trauma Fixation Center) – Market Size, Trends, And Global Forecast 2022-2026 https://www.thebusinessresearchcompany.com/report/orthopedic-accessories-global-market-report

About <u>The Business Research Company?</u>

The Business Research Company has published over 1000 industry reports, covering over 2500 market segments and 60 geographies. The reports draw on 150,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. The reports are updated with a detailed analysis of the impact of COVID-19 on various markets.
