The operating room equipment market consists of sales of operating room equipment and related services. Operating room equipment is used during surgery and includes surgical beds, operating tables, operating table accessories, operating room lights, operating room integration systems, and equipment management systems.

[Global Operating Room Equipment Market Trends](#)

The hybrid operating room is a new trend being observed in the global operating room market. A hybrid operating room is an alternative to a conventional operating room equipped with advanced medical imaging systems and devices which support high-quality interventional imaging and minimally invasive surgeries. It has a complex environment in which numerous surgeons, nurses, anesthesiologists, and technicians work together. Hybrid operating rooms in
