

Table Tennis Market size is worth at USD 130.0 million in 2021 | Precision Business Insights

As a result of the high-quality table tennis instruction, the participation of great players in important table tennis tournaments including the Olympic Games

LONDON , UNITED KINGDOM, June 27, 2022 /EINPresswire.com/ -- The global [table tennis market size](#) is valued at USD 130.0 million in 2021 and is poised to grow at a significant CAGR of 3.5% over 2022-28. Table tennis was invented in the United Kingdom. It's an indoor sport played by 2 or 4 players on a hard table that's similar to royal tennis in principle. The table is normally dark in colour, with white stripes around the edges, and is divided in half by a tennis net. Table tennis is also known as Ping-Pong in various parts of the world. Table tennis' goal is to hit a lightweight, celluloid, hollow, as well as plastic ball up the net, rebound it on the half of the court nearest to the player, and bounce it one time on the other player's side of the table in such a way that the opponent is unable to return it accurately.
