

Network Performance Monitoring and Diagnostics Market To Grow At A CAGR Of 18.3% From 2021 To 2028 | Emergen Research

Rise in demand for network monitoring and uninterrupted network services are some key factors driving revenue growth of market

VANCOUVER, BC, CANADA, June 27, 2022 /EINPresswire.com/ -- The global [Network Performance Monitoring and Diagnostics \(NPMD\) market](#) size is expected to reach USD 7.93 Billion in 2028 and register a steady revenue CAGR of 15.8% over the forecast

period, according to latest analysis by Emergen Research. Robust revenue growth of the global Network Performance Monitoring and Diagnostics (NPMD) market is attributed to emergence of new approaches to harvest network data by using sophisticated big data techniques combined with Machine Learning (ML) and cloud computing.

Technological advancements and rapid digitalization are major factors prompting enterprises to comprise several interconnected networks. Demand for higher bandwidth from enterprises is another factor driving revenue growth of the market. NPMD also help provide uninterrupted network services to customers and enables continuous availability, which is critical for uninterrupted business operations. It minimizes damage, maintains track of network security, reduces loss of productivity in an organization, secures infrastructure from cyberattacks, and addresses network issues.

Cloud-based network performance monitoring and diagnostics is gaining traction due to rapid integration of the Artificial Intelligence (AI), Internet of Things (IoT), evolution of 5G networks, predictive analytics, and ML. Rising demand for highly scalable and reliable network monitoring equipment is also support market growth. In addition, need for more robust network monitoring capabilities to ensure smooth operation of mission-critical infrastructure and need to resolve downtime issues more rapidly are propelling adoption of this technology.

Network Performance
Monitoring and Diagnostics
Market Size – USD 2.44
Billion in 2020, Market
Growth – at a CAGR of
15.8%, Market Trends –

The major manufacturers covered in this report:

Cisco Systems, SolarWinds, Broadcom, Ipswitch, NetBrain, ManageEngine, Riverbed, Paessler, LogicMonitor, and AppNeta

The research analyzes market segmentation based on product type, application, sale and geographical regions.

All different parameters known to impact the Network Performance Monitoring and Diagnostics market are assessed in this research report and have also been accounted for, examined in detail, analyzed through qualitative and quantitative research and weighed upon to get actionable data.

Segments Covered in this report are:

Product Type Outlook (Revenue, USD Billion; 2018–2028)

Flow-based Technology

Device Polling Technology

Packet-based Technology

Application Outlook (Revenue, USD Billion; 2018–2028)

Windows

iOS

Android

Organization Size Outlook (Revenue, USD Billion; 2018–2028)

Small- and Medium-sized Enterprises

Large Enterprises

Rest of LATAM

Middle East & Africa

Saudi Arabia

UAE

Israel

Rest of MEA

Scope Of The Report:

This extensive analysis sheds light on an array of intangible aspects connected with the business such as important definitions, end use and total revenue garnered across different regions. The researcher has taken a conscious effort to get a closer look at some of the top performers of the Network Performance Monitoring and Diagnostics industry. Other essential aspects evaluated during research include import and export, demand and supply, distribution channel, gross margin and supply chain management.

Browse complete Network Performance Monitoring and Diagnostics report description And Full TOC @ <https://www.emergenresearch.com/industry-report/network-performance-monitoring-and-diagnostics-market>

This report strategically examines the micro-markets and brings to light the impact of technology upgrades on the performance of the Network Performance Monitoring and Diagnostics market. Researchers conducting the research also carry out a comprehensive analysis of the recent amendments in the government regulation and their impact on the competitive landscape of the industry.

Our reports will help you solve the following issues: –

Insecurity about the future:

Our research and insights help our clients to anticipate upcoming revenue compartments and growth ranges. This help our client to invest or divest their assets.

Understanding market opinions:

It is extremely vital to have an impartial understanding of market opinions for a strategy. Our insights help to have a keen view on a market sentiment. We keep this reconnaissance by

engaging with Key Opinion Leaders of a value chain of each industry we track.

Understanding the most reliable investment centers:

Our research ranks investments centers of market by considering their future demands, returns and profit margins. Our clients can focus on most prominent investment centers by procuring our market research.

Evaluating potential business partners:

Our research and insights help our clients in identifying compatible business partners.

Have Any Query? Ask Our Expert @ <https://www.emergenresearch.com/request-for-customization/879>

The professional intelligence study on the Network Performance Monitoring and Diagnostics market addresses some of the most critical questions:

What market size will 2031 be, and what growth rate will it experience?

What are the key trends in the Market?

What are the driving forces behind the Network Performance Monitoring and Diagnostics market?

What are the obstacles to market growth?

Which are the top vendors in this space?

What are the threats and opportunities in the market for key vendors?

What are the strengths or weaknesses of critical vendors?

What are the future opportunities for the players in the Network Performance Monitoring and Diagnostics market?

What are the main issues facing the global Network Performance Monitoring and Diagnostics market?

How does the competitive landscape look?

About Emergen Research

Emergen Research is a market research and consulting company that provides syndicated

research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trend's existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
