LOS ANGELES, CA, USA, June 28, 2022 /EINPresswire.com/ -- Since mid-2020, The Golden Trump Statue, nicknamed the "Golden Calf" by the liberal media, has been mocked by several media personalities like Jimmy Fallon and Stephen Colbert. Its controversial origins have piqued the interest of millions, and several news networks like BBC, CNN, Univision, and The Washington Post have described this piece as a quirky representation of the 45th president.

On Labor Day weekend, September 3-5, 2022, two months before the November midterm elections, Jose Mauricio Mendoza intends to release the autobiography, "Golden Trump Statue," through Amazon Books, Barnes & Noble, and Apple Books to bring a complete picture to the audience. This autobiography covers all events of importance while clearing up the confusion on the origins of this statue, including Mr. Mendoza's thoughts on the divisiveness of the American political landscape.

raised to the Trump and Republican campaigns.
