

111MedCo's 10% Benzoyl Peroxide Acne Bar Chosen as Best Bar Soap To Get Rid Of Blemishes Everywhere by Women'sHealth

After three years treating face and body acne, getting close to 5,000 reviews, and consistently earning 4.5 stars; 111MedCo's 10% BPO Bar continues to impress.

DOVER, DE, USA, June 27, 2022 /EINPresswire.com/ -- [111MedCo's 10% Benzoyl Peroxide Acne Cleansing Bar](#) Chosen as Best Bar Soap by Women'sHealth "[12 Acne Body Washes That Will Get Rid Of Blemishes Everywhere](#)" (see you never, bacne).

The article states: "If you've ever struggled with acne on your butt, chest, or back, chances are you know how uncomfortable it is. But even though it might not feel like it, body acne is pretty common, especially if you workout regularly. That's where a body wash that treats acne comes in. With all of the body washes lining beauty shelves, it can be a tad difficult to determine which ones actually keep your breakouts in check and which ones don't, so it's essential to read the labels on each product before deciding which one might be best to add to your regular shower routine".

Women'sHealth noted that people tend to have mixed feelings about bar soap, but the 111MedCo acne treatment bar uses benzoyl peroxide to deeply clean the skin by removing dirt and oil from pores and is made specifically for acne and blemishes.

I know people tend to have mixed feelings about bar soap, but this one made specifically for acne and blemishes uses benzoyl peroxide to deeply clean the skin by removing dirt and oil from your pores.

Women'sHealth "12 Acne Body Washes That Will Get Rid Of Blemishes Everywhere"

Drug Facts	
Active ingredient Benzoyl peroxide 10%	Purpose Acne medication
Use for the treatment of acne, helps prevent new acne blemishes from forming	
Warnings For external use only Do not use • if you have very sensitive skin • if you are sensitive to benzoyl peroxide. When using this product • skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If irritation occurs, only use one topical acne medication at a time • avoid unnecessary sun exposure and use a sunscreen • avoid contact with the eyes, lips, and mouth • avoid contact with hair and dyed fabrics, which may be bleached by this product • skin irritation may occur, characterized by redness, burning, itching, peeling, or possibly swelling. Irritation may be reduced by using the product less frequently or in a lower concentration. Stop use and consult a doctor if • irritation becomes severe. Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.	
Directions • using warm water, wash the affected area for 1 to 2 minutes • rinse well and pat dry with a clean towel • because too much drying of the skin may occur, start with 1 application daily, then gradually increase to 2 to 3 times daily if needed or as directed by a doctor • if bothersome dryness or peeling occurs, reduce application to once a day or every other day • if going outside, apply sunscreen after using the product • if irritation or sensitivity develops, stop use of both products and ask a doctor.	
Other information Store at controlled room temperature 59°-86°F (15°-30°C)	
Inactive ingredients sodium cocoyl isethionate, stearic acid, coconut acid, water, sodium isethionate, ethylene/VA copolymer, zinc myristate, sodium tallowate, titanium dioxide, mineral oil, cocamidopropyl betaine, tetrasodium edidronate, sodium cocoate, glycerin, sodium chloride, tetrasodium EDTA	

Directions

Benzoyl peroxide is a mainstay of any acne treatment regimen around the world and has been in use since 1960. It offers antibacterial effects (kills bacteria), keratolytic effects (helping to loosen outer layers of the skin and shed them), and comedolytic activity (reduces the formation of pimples).

The [111MedCo 10% Benzoyl Peroxide Acne Treatment Bar](#) is a simple and inexpensive way to help treat acne on the face and body.

Better for the environment. We only have a cardboard carton and no plastic.

Bar soaps get you clean, reduce waste, and may last longer. They are also making a resurgence due to their simplicity of packaging, only requiring paper and no plastic. They are also lighter to transport than liquid soaps helping to reduce environmental impacts.
