LONDON, GREATER LONDON, UK, June 28, 2022 /EINPresswire.com/ --

According to 'Grain Alcohol Global Market Report 2022 – Market Size,

Trends, And Global Forecast 2022-2026' published by The Business Research Company, the grain alcohol market size is expected to grow from \$12.63 billion in 2021 to \$13.31 billion in 2022 at a compound annual growth rate (CAGR) of 5.33%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. As per TBCR's grain alcohol global market outlook the market size is expected to reach \$16.37 billion in 2026 at a CAGR of 5.32%. The increasing consumption of alcoholic drinks is driving the growth of the grain alcohol global market.
