

Global Nutritional Analysis Market Size And Market Growth Opportunities

*The Business Research Company's
Nutritional Analysis Global Market Report
2022: Market Size, Trends And Forecast To
2026*

LONDON, GREATER LONDON, UK, June
28, 2022 /EINPresswire.com/ --

According to 'Nutritional Analysis
Global Market Report 2022 – Market
Size, Trends, And Global Forecast 2022-

2026' published by The Business Research Company, the nutritional analysis market size is expected to grow from \$4.93 billion in 2021 to \$5.30 billion in 2022 at a compound annual growth rate (CAGR) of 7.67%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global nutritional analysis market size is expected to reach \$7.22 billion in 2026 at a CAGR of 7.94%. The increasing consumer awareness and change in preference for consuming healthy food is expected to propel the nutritional analysis market growth.

The nutritional analysis market consists of sales of nutritional analysis products and services by entities (organizations, sole traders, and partnerships) that are used to determine the nutritional content of foods and food products. Nutritional analysis is used to analyze the nutritional content present in the food products and understand the chemical composition, processing, quality control and contamination of food. The nutritional information includes a range of information such as calories, vitamins and minerals, thus allowing consumers to make informed purchases.

[Global Nutritional Analysis Market Trends](#)

Technological advancements is a key trend gaining popularity in the nutritional analysis market. Stakeholders in the market are focusing on developing equipment and platforms which enable
