

Bold City Heating & Air Now Offering Free System Maintenance with Purchase of Duct Cleaning

Just in time for summer, Jacksonville's industry leader in heating and air is offering a great deal on duct cleaning.

JACKSONVILLE, FLORIDA, UNITED STATES, June 28, 2022

/EINPresswire.com/ -- Representatives with [Bold City Heating & Air](#) are proud to announce today that it is now offering free system maintenance with the purchase of duct cleaning.

Mirza Pilakovic, President of Bold City Heating & Air, explained that the [free system tune-up, a \\$115 value, with the purchase of duct cleaning](#), is limited to one coupon per household.

To take advantage of this offer, Pilakovic noted that individuals can call Bold City Heating & Air at (904) 513-3158 to schedule their appointment.

Regarding the benefits of duct cleaning, keeping the air moving efficiently within your home's ductwork, Pilakovic said, allows the heating and cooling system to run energy efficiently.

Every time the individual's system powers up, it is using electricity. With proper air flow, the residence will reach the desired temperature quicker, and when the set temperature is achieved the thermostat will turn the heating and cooling system down to use less energy. This process is repeated all throughout the day over the course of 365 days a year.

A better system performance due to duct cleaning will lead to lower energy bills keeping more money in your wallet.

On the contrary, when the system needs to work harder to achieve the desired temperature, the result will be higher energy bills.

The lifetime of anyone's HVAC system will also be impacted according to how hard it's working to achieve heating or cooling comfort. The shorter it takes to cool or heat the home, the longer the

life expectancy of the system; the longer it takes, the shorter the life expectancy of your HVAC system.

An additional reason for duct cleaning is to avoid the buildup of mold. Mold can not only build up around the outside of the air conditioner vents, but mold can also build within the ductwork of the HVAC system. Mold can grow within the air ducts of the home, so keeping your air ducts clean can help you avoid this buildup in your home.

“We invite anyone in need of duct cleaning to take advantage of this unique deal today,” Pilakovic said.

Bold City Heating & Air has more than 600 five-star reviews on Google. The company believes in treating every customer as if they were family and giving them the respect and dependable A/C service they deserve.
