Cannabidiol (CBD) is defined as a phytocannabinoid which is discovered in 1940. It is one of 113 identified cannabinoids in cannabis plants, along with tetrahydrocannabinol (THC), and accounts for up to 40% of the plant's extract. Cannabinoids got the name as they were only found in the plants called cannabis at first and it was later discovered that they also exist in other different plants, even in human body.

Rise in the consumer preference for various plant-based supplements is a vital factor escalating the market growth, also rise in the awareness about medical benefits of cannabidiol and its remedial properties, rise in the standard of living, and legalization of different CBD (cannabidiol)

products and rise in the demand for various hemp proteins among bodybuilders, athletes, and vegan population are the major factors among others driving the CBD nutraceuticals market. Moreover, rise in the demand from emerging economies will further create new opportunities for the CBD nutraceuticals market in the forecast period of 2021- 2028.
